Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that involve a number of risks and uncertainties. Words such as “anticipates,” “expects,” “intends,” “goals,” “plans,” “believes,” “seeks,” “estimates,” “continues,” “may,” “will,” “would,” “should,” “could,” and variations of such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, our anticipated growth and trends in our businesses, uncertain events or assumptions, and other characterizations of future events or circumstances are forward-looking statements. Such statements are based on management's expectations as of the date of this filing and involve many risks and uncertainties that could cause our actual results to differ materially from those expressed or implied in our forward-looking statements. Such risks and uncertainties include those described throughout this report and our Annual Report on Form 10-K for the year ended December 31, 2018, particularly the “Risk Factors” sections of such reports. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. Readers are urged to carefully review and consider the various disclosures made in this Form 10-Q and in other documents we file from time to time with the Securities and Exchange Commission that disclose risks and uncertainties that may affect our business. The forward-looking statements in this Form 10-Q do not reflect the potential impact of any divestitures, mergers, acquisitions, or other business combinations that had not been completed as of May 20, 2019. In addition, the forward-looking statements in this Form 10-Q are made as of the date of this filing, and we do not undertake, and expressly disclaims any duty, to update such statements, whether as a result of new information, new developments or otherwise, except to the extent that disclosure may be required by law.

The Company’s wholly-owned subsidiaries are Coolisys Technologies, Inc. (“Coolisys”), Digital Power Limited (“DP Limited”), Enertec Systems 2001 Ltd (“Enertec”), Power-Plus Technical Distributors, LLC (“Power-Plus”), Digital Power Lending, LLC (“DP Lending”) and Digital Farms, Inc. (“Digital Farms”). The Company also has controlling interests in Microphase Corporation (“Microphase”) and I. AM, Inc. (“I.AM”). The Company has five reportable segments – North America with operations conducted by Microphase, Coolisys, Power-Plus and DP Lending, Europe with operations through DP Limited, Middle East with operations through Enertec, digital currency blockchain mining through Digital Farms and restaurant operations through I.AM.

On March 14, 2019, pursuant to the authorization provided by the Company’s stockholders at a Special Meeting of Stockholders, the Company’s Board of Directors approved the Certificate of Incorporation Amendment (the “COI Amendment”) to effectuate a reverse stock split of the Common Stock affecting both the authorized and issued and outstanding number of such shares by a ratio of one-for-twenty (the “Reverse Stock Split”).

2. LIQUIDITY, GOING CONCERN AND MANAGEMENT’S PLANS

The accompanying condensed consolidated financial statements have been prepared on the basis that the Company will continue as a going concern. As of March 31, 2019, the Company had cash and cash equivalents of \$1,283,607, an accumulated deficit of \$62,720,464 and a negative working capital of \$19,496,667. The Company has incurred recurring losses and reported losses for the three months ended March 31, 2019 and 2018, totaled \$6,711,026 and \$6,095,953, respectively. In the past, the Company has financed its operations principally through issuances of convertible debt, promissory notes and equity securities. During 2019, the Company continued to successfully obtain additional equity and debt financing and in restructuring existing debt.

The Company expects to continue to incur losses for the foreseeable future and needs to raise additional capital to continue its business development initiatives and to support its working capital requirements. In March 2017, the Company was awarded a 3-year, \$50 million purchase order by MTIX Ltd. (“MTIX”) to manufacture, install and service the Multiplex Laser Surface Enhancement (“MLSE”) plasma-laser system. Currently, the Company has subcontracted out a significant amount of these services to third parties. Although the manufacture of the \$50 million of MLSE plasma-laser systems is expected to exceed four years, management continues to believe that the MLSE purchase order will be a source of revenue and generate significant cash flows for the Company. Additionally, on April 2, 2019, the Company received gross proceeds of approximately \$7 million in a public offering of its securities (See Note 22). Management believes that the Company has access to capital resources through potential public or private issuances of debt or equity securities. However, if the Company is unable to raise additional capital, it may be required to curtail operations and take additional measures to reduce costs, including reducing its workforce, eliminating outside consultants and reducing legal fees to conserve its cash in amounts sufficient to sustain operations and meet its obligations. These matters raise substantial doubt about the Company’s ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might become necessary should the Company be unable to continue as a going concern.

3. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Regulation S-X and do not include all the information and disclosures required by generally accepted accounting principles in the United States of America (“GAAP”). The Company has made estimates and judgments affecting the amounts reported in our condensed consolidated financial statements and the accompanying notes. The actual results experienced by the Company may differ materially from our estimates. The condensed consolidated financial information is unaudited but reflects all normal adjustments that are, in the opinion of management, necessary to provide a fair statement of results for the interim periods presented. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018, filed with the Securities and Exchange Commission on April 16, 2019. The condensed consolidated balance sheet as of December 31, 2018 was derived from the Company’s audited 2018 financial statements contained in the above referenced Form 10-K. Results of the three months ended March 31, 2019, are not necessarily indicative of the results to be expected for the full year ending December 31, 2019.

Principles of Consolidation

The consolidated financial statements include the accounts of DPW and its wholly-owned subsidiaries, Coolisys, DP Limited, Power-Plus, Enertec, DP Lending and Digital Farms and its majority-owned subsidiaries, Microphase and I.A.M. All significant intercompany accounts and transactions have been eliminated in consolidation.

Accounting Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates, judgments and assumptions. The Company’s management believes that the estimates, judgments and assumptions used are reasonable based upon information available at the time they are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates. Key estimates include acquisition accounting, fair value of certain financial instruments, reserve for trade receivables and inventories, carrying amounts of investments, fair value of digital currencies, accruals of certain liabilities including product warranties, useful lives and depreciation, and deferred income taxes and related valuation allowance.

Revenue Recognition

The Company recognizes revenue under ASC 606, *Revenue from Contracts with Customers*. The core principle of the new revenue standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The following five steps are applied to achieve that core principle:

- Step 1: Identify the contract with the customer,
- Step 2: Identify the performance obligations in the contract,
- Step 3: Determine the transaction price,
- Step 4: Allocate the transaction price to the performance obligations in the contract, and
- Step 5: Recognize revenue when the company satisfies a performance obligation.

Sales of Products

The Company generates revenues from the sale of its products through a direct and indirect sales force. The Company's performance obligations to deliver products are satisfied at the point in time when products are received by the customer, which is when the customer has title and the significant risks and rewards of ownership. The Company provides standard assurance warranties, which are not separately priced, that the products function as intended. The Company primarily receives fixed consideration for sales of product. Some of the Company's contracts with distributors include stock rotation rights after six months for slow moving inventory, which represents variable consideration. The Company uses an expected value method to estimate variable consideration and constrains revenue for estimated stock rotations until it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. To date, returns have been insignificant. The Company's customers generally pay within 30 days from the receipt of a valid invoice.

Because the Company's product sales agreements have an expected duration of one year or less, the Company has elected to adopt the practical expedient in ASC 606-10-50-14(a) of not disclosing information about its remaining performance obligations.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
MARCH 31, 2019

Manufacturing Services

The Company provides manufacturing services in exchange primarily for fixed fees, however, the initial two MLSE units are subject to variable pricing under the \$50 million purchase order from MTIX. Under the terms of the MLSE purchase order, the Company shall be entitled to cost plus \$100,000 for the manufacture of the first two MLSE units. The Company has determined that the costs of manufacturing the MLSE units will decline over time because of a learning curve which will result in a greater amount of revenue being recognized for these initial two MLSE units.

For manufacturing services, which include revenues generated by Enertec and in certain instances revenues generated by DPL, the Company's performance obligation for manufacturing services is satisfied over time as the Company creates or enhances an asset based on criteria that is unique to the customer and that the customer controls as the asset is created or enhanced. Generally, the Company recognizes revenue based upon proportional performance over time using a cost to cost method which measures progress based on the costs incurred to total expected costs in satisfying its performance obligation. This method provides a depiction of the progress in providing the manufacturing service because there is a direct relationship between the costs incurred by the Company and the transfer of the manufacturing service to the customer. Manufacturing services that are recognized based upon the proportional performance method are included in the above table as services transferred over time and to the extent the customer has not been invoiced for these revenues, as accrued revenue in the accompanying consolidated balance sheets. Revisions to the Company's estimates may result in increases or decreases to revenues and income and are reflected in the consolidated financial statements in the periods in which they are first identified.

The Company has elected the practical expedient to not adjust the promised amount of consideration for the effects of a significant financing component to the extent that the period between when the Company transfers its promised good or service to the customer and when the customer pays is one year or less.

The aggregate amount of the transaction price allocated to the performance obligation that is partially unsatisfied as of March 31, 2019 for the MLSE units was approximately \$48 million. The Company expects to recognize the remaining revenue related to the partially unsatisfied performance obligation over the next two and a half years. The Company will be paid in installments for this performance obligation over the next two and a half years.

Blockchain Mining

The Company derives its revenue by providing transaction verification services within the digital currency networks of cryptocurrencies, such as Bitcoin, Bitcoin Cash and Litecoin. The Company satisfies its performance obligation at the point in time that which the Company is awarded a unit of digital currency through its participation in the applicable network and network participants benefit from the Company's verification service. In consideration for these services, the Company receives digital currencies which are recorded as revenue, using the closing U. S. dollar price of the related cryptocurrency on the date of receipt. Expenses associated with running the cryptocurrency mining business, such as equipment depreciation and electricity cost are recorded as a component of cost of revenues.

Restaurant Operations

The Company records revenue from restaurant sales at the time of sale, net of discounts, coupons, employee meals and complimentary meals and gift cards. Restaurant cost of sales primarily includes the cost of good, beverages, and merchandise and disposable paper and plastic goods used in preparing and selling the Company's menu items and exclude depreciation and amortization. Vendor allowances received in connection with the purchase of a vendor's products are recognized as a reduction of the related food and beverage costs as earned.

Fair value of Financial Instruments

In accordance with ASC No. 820, *Fair Value Measurements and Disclosures*, fair value is defined as the exit price, or the amount that would be received for the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The guidance also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the factors that market participants would use in valuing the asset or liability. The guidance establishes three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or model-derived valuations. All significant inputs used in our valuations are observable or can be derived principally from or corroborated with observable market data for substantially the full term of the assets or liabilities. Level 2 inputs also include quoted prices that were adjusted for security-specific restrictions which are compared to output from internally developed models such as a discounted cash flow models.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The carrying amounts of financial instruments carried at cost, including cash and cash equivalents, accounts receivables and accounts and other receivable – related party, investments, notes receivable, trade payables and trade payables – related party approximate their fair value due to the short-term maturities of such instruments.

The categorization of a financial instrument within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The following table sets forth the Company’s financial instruments (See Note 4 and Note 7) that were measured at fair value on a recurring basis by level within the fair value hierarchy:

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
MARCH 31, 2019

We assess the inputs used to measure fair value using the three-tier hierarchy based on the extent to which inputs used in measuring fair value are observable in the market.

Leases

Effective January 1, 2019, the Company accounts for its leases under ASC 842, *Leases*. Under this guidance, arrangements meeting the definition of a lease are classified as operating or financing leases. As of January 1, 2019, we only had operating leases. Operating leases are recognized in Operating lease right-of-use (“ROU”) assets, Operating lease liabilities, current, and Operating lease liabilities, non-current on our consolidated balance sheets. Lease assets and liabilities are recognized based on the present value of the future minimum lease payments over the lease term at commencement date. As most of our leases do not provide an implicit rate, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of future payments. In certain of our lease agreements, we receive rent holidays and other incentives. We recognize lease costs on a straight-line basis over the lease term without regard to deferred payment terms, such as rent holidays, that defer the commencement date of required payments. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Leasehold improvements are capitalized at cost and amortized over the lesser of their expected useful life or the life of the lease, without assuming renewal features, if any, are exercised. We do not separate lease and non-lease components for our leases.

The Company continues to account for leases in the prior period financial statements under ASC Topic 840.

Net Loss per Share

Net loss per share is computed by dividing the net loss to common stockholders by the weighted average number of common shares outstanding. The calculation of the basic and diluted earnings per share is the same for all periods presented, as the effect of the potential common stock equivalents is anti-dilutive due to the Company’s net loss position for all periods presented. Anti-dilutive securities, which are convertible into the Company’s Class A common stock, consist of the following at March 31, 2019 and 2018:

	March 31,	
	2019	2018
Stock options	360,250	222,875
Warrants	936,381	323,743
Convertible notes	1,438,456	—
Conversion of preferred stock	89,286	83,856
Total	2,824,373	630,474

Reclassifications

Certain prior year amounts have been reclassified for comparative purposes to conform to the current-year financial statement presentation. These reclassifications had no effect on previously reported results of operations. In addition, certain prior year amounts from the restated amounts have been reclassified for consistency with the current period presentation.

Recently Issued Accounting Standards

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-02, *Leases (Topic 842)*, in order to increase transparency and comparability among organizations by, among other provisions, recognizing lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous U.S. GAAP. For public companies, ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 (including interim periods within those periods) using a modified retrospective approach and early adoption is permitted. In transition, entities may also elect a package of practical expedients that must be applied in its entirety to all leases commencing before the adoption date, unless the lease is modified, and permits entities to not reassess (a) the existence of a lease, (b) lease classification or (c) determination of initial direct costs, as of the adoption date, which effectively allows entities to carryforward accounting conclusions under previous U.S. GAAP. In July 2018, the FASB issued ASU 2018-11, *Leases (Topic 842): Targeted Improvements*, which provides entities an optional transition method to apply the guidance under Topic 842 as of the adoption date, rather than as of the earliest period presented. The Company adopted Topic 842 on January 1, 2019, using the optional transition method to apply the new guidance as of January 1, 2019, rather than as of the earliest period presented, and elected the package of practical expedients described above. Upon adoption the Company recognized cumulative operating lease liabilities and operating right-of-use assets of approximately \$4.2 million which were reflected as non-cash items in the consolidated statement of cash flows.

In July 2017, the FASB issued ASU No. 2017-11, *Earnings per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480), Derivatives and Hedging (Topic 815)* (“ASU 2017-11”). ASU 2017-11 consists of two parts. The amendments in Part I of this update change the classification analysis of certain equity-linked financial instruments (or embedded features) with down round features. When determining whether certain financial instruments should be classified as liabilities or equity instruments, a down round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity’s own stock. The amendments also clarify existing disclosure requirements for equity-classified instruments. As a result, a freestanding equity-linked financial instrument (or embedded conversion option) no longer would be accounted for as a derivative liability at fair value as a result of the existence of a down round feature. For freestanding equity classified financial instruments, the amendments require entities that present earnings per share (“EPS”) in accordance with Topic 260 to recognize the effect of the down round feature when it is triggered. That effect is treated as a dividend and as a reduction of income available to common stockholders in basic EPS. Convertible instruments with embedded conversion options that have down round features are now subject to the specialized guidance for contingent beneficial conversion features (in Subtopic 470-20, Debt—Debt with Conversion and Other Options), including related EPS guidance (in Topic 260). The amendments in Part II of this update re-characterize the indefinite deferral of certain provisions of Topic 480 that now are presented as pending content in the Codification, to a scope exception. Those amendments do not have an accounting effect. For public business entities, the amendments in Part I of this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The amendments in Part II of this update do not require any transition guidance because those amendments do not have an accounting effect. The Company adopted this standard on January 1, 2019 and the adoption did not have a material impact on its consolidated financial statements and related disclosures.

In June 2018, the FASB issued ASU No. 2018-07, *Improvements to Nonemployee Share-Based Payment Accounting*, (“ASU 2018-07”). ASU 2018-07 simplifies the accounting for share-based payments granted to nonemployees for goods and services. Under ASU 2018-07, most of the guidance on such payments to nonemployees would be aligned with the requirements for share-based payments granted to employees. The changes take effect for public companies for fiscal years starting after December 15, 2018, including interim periods within that fiscal year. The Company adopted this standard on January 1, 2019 and the adoption did not have a material impact on its consolidated financial statements and related disclosures.

4. Marketable Equity Securities

Marketable securities in equity securities with readily determinable market prices consisted of the following as of March 31, 2019 and December 31, 2018:

Realized losses on marketable equity securities	(13,344)
Unrealized gains on marketable equity securities	105,391
Balance at March 31, 2019	\$ 283,988

At March 31, 2019 and December 31, 2018, the Company had invested in the marketable equity securities of certain publicly traded companies. During the three months ended March 31, 2019, unrealized gains of \$105,391 were included in net income as a component of change in fair value of equity securities. During the three months ended March 31, 2018, the Company recorded an unrealized loss of \$150,734 as accumulated other comprehensive income in the stockholder's equity section of the Company's consolidated balance sheet and as a change in unrealized gains and losses on marketable equity securities in the Company's consolidated statements of comprehensive income (loss). The Company's investment in marketable equity securities will be revalued on each balance sheet date. The fair value of the Company's holdings in marketable equity securities at March 31, 2019 and December 31, 2018 is a Level 1 measurement based on quoted prices in an active market.

At March 31, 2019 and December 31, 2018, the Company also held an investment in preferred stock of a private company and an investment in a limited partnership. These investments do not have readily determinable fair values and have been measured at cost less impairment, if any, and adjusted for observable price changes for identical or similar investments of the issuer.

5. PROPERTY AND EQUIPMENT, NET

At March 31, 2019 and December 31, 2018 property and equipment consist of:

The Company's investments in AVLP, a related party controlled by Philou Ventures, LLC, or Philou, a significant stockholder of the Company, consist of convertible promissory notes, derivative instruments and shares of common stock of AVLP. At March 31, 2019, the Company has provided loans to AVLP in the principal amount \$7,732,660 and, in addition to the 12% convertible promissory notes, AVLP has issued to the Company warrants to purchase 15,465,320 shares of AVLP common stock. The warrants entitle the Company to purchase up to 15,465,320 shares of AVLP common stock at an exercise price of \$0.50 per share for a period of five years. The warrants were determined by the issuer to be financial derivative instruments. At March 31, 2019 and December 31, 2018, the Company recorded an unrealized loss on its investment in warrants of AVLP of \$3,150,061 and \$2,413,381, respectively, representing the difference between the cost basis and the estimated fair value of the warrants in the Company's accumulated other comprehensive income in the stockholder's equity section of the Company's consolidated balance sheet. During the three months ended March 31, 2019 and 2018, the Company recognized, in other comprehensive loss, net unrealized loss on derivative securities of related party of \$736,680 and \$4,273,014, respectively. The Company's investment in AVLP will be revalued on each balance sheet date. The fair value of the Company's holdings in the AVLP warrants was estimated using the Black-Scholes option-pricing method. The risk-free rate, which ranged between 2.22% and 2.77%, was derived from the U.S. Treasury yield curve, matching the term of our investment, in effect at the measurement date. The volatility factor which ranged between 68.7% and 82.8% was determined based on historical stock prices for similar technology companies with market capitalizations under \$100 million. The warrant valuation is a Level 3 measurement.

In accordance with ASC No. 310, *Receivables* ("ASC 310"), the Company accounts for its convertible promissory notes in AVLP at amortized cost, which represents the amount at which the convertible promissory notes were acquired, adjusted for accrued interest and accretion of original issue discount and discount attributed to the fair value of the 15,465,320 warrants that the Company received in conjunction with its investment. Interest is accreted using the effective interest method. The Company records interest on an accrual basis and recognizes it as earned in accordance with the contractual terms of the convertible promissory notes, to the extent that such amounts are expected to be collected. An aggregate of \$5,029,211 of original issue discount and discount attributed to the fair value of the warrants is being amortized as interest income through the maturity date. During the three months ended March 31, 2019 and 2018, the Company recorded \$619,809 and \$490,031, respectively, of interest income for the discount accretion. During the three months ended March 31, 2019 and 2018, the Company recorded contractual interest receivable attributed to the AVLP Notes and AVLP Loan Agreement of \$210,191 and \$143,682, respectively.

The Company evaluated the collectability of both interest and principal for the convertible promissory notes in AVLP to determine whether there was an impairment. Based on current information and events, the Company determined that it is probable that it will be able to collect amounts due according to the existing contractual terms. Impairment assessments require significant judgments and are based on significant assumptions related to the borrower's credit risk, financial performance, expected sales, and estimated fair value of the collateral.

At March 31, 2019, the closing market price of AVLP's common stock was \$0.65, a decline from \$0.90 at December 31, 2018. The Company has determined that its investment in AVLP marketable equity securities are accounted for pursuant to the fair value method and based upon the closing market price of AVLP common stock at March 31, 2019, the Company's investment in AVLP common stock had an unrealized loss of \$102,104.

8. OTHER INVESTMENTS, RELATED PARTIES

The Company's other related party investments primarily consist of two investments.

MTIX, Ltd.

On December 5, 2017, the Company entered into an exchange agreement with WT Johnson pursuant to which the Company issued to WT Johnson two convertible promissory notes in the principal amount of \$600,000 ("Note A") and \$1,667,766 ("Note B"), in exchange for cancellation of amounts due to WT Johnson by MTIX Ltd., a related party of the Company.

During December 2017, the Company issued 30,000 shares of its common stock to WT Johnson & Sons upon the conversion of Note A and WT Johnson subsequently sold the 30,000 shares. The proceeds from the sale of shares of common stock received upon the conversion of Note A were sufficient to satisfy the entire \$2,267,766 obligation as well as an additional \$400,500 of value added tax due to WT Johnson. Concurrent with entering into the exchange agreement, the Company received a promissory note in the amount of \$2,668,266 from MTIX and cancelled Note B. At March 31, 2019 and December 31, 2018, the Company has valued the note receivable at \$600,000, the carrying amount of Note A. The Company will recognize the remainder of the amount due from MTIX upon payment of the promissory note by MTIX.

Israeli Property

During the year ended December 31, 2017, our President, Amos Kohn, purchased certain real property that serves as a facility for the Company's business operations in Israel. The Company made \$300,000 of payments to the seller of the property and received a 28% undivided interest in the real property ("Property"). The Company's subsidiary, Coolisys, entered into a Trust Agreement and Tenancy In Common Agreement with Roni Kohn, who owns a 72% interest in the Property, the daughter of Mr. Kohn and an Israeli citizen. The Property was purchased to serve as a residence/office facility for the Company in order to oversee its Israeli operations and to expand its business in the hi-tech industry located in Israel. Pursuant to the Trust Agreement, Ms. Kohn will hold and manage Coolisys' undivided 28% interest in the Property. The trust will be in effect until it is terminated by mutual agreement of the parties. During the term of the trust, Ms. Kohn will not sell, lease, sublease, transfer, grant, encumber, change or effect any other disposition with respect to the Property or Coolisys' interest without the Company's approval.

Under the Tenancy In Common Agreement, Coolisys and its executive officers shall have the exclusive rights to use the Property for the Company and its affiliates' business operations. The Property shall be managed by Ms. Kohn. Further, pursuant to the Tenancy In Common Agreement, for each completed calendar month of employment of Mr. Kohn by the Company, Ms. Kohn shall have the right to purchase a portion of the Company's interest in the Property. Such right shall fully vest at the end of five years of continuous employment and the Trustee shall have the right to purchase the Company's 28% interest in the Property for a nominal value. The Company will amortize its \$300,000 investment over ten years, subject to a cliff vesting after five years. During the three months ended March 31, 2019 and 2018, the Company recognized \$7,500 in amortization expense. If Mr. Kohn is not employed by the Company, the Company shall have the right to demand that Ms. Kohn purchase the Company's remaining interest in the Property that was not subject to vesting for the fair market value of such unvested Property interest.

10. STOCK-BASED COMPENSATION

Under the Company's 2018 Stock Incentive Plan (the "2018 Plan"), 2017 Stock Incentive Plan (the "2017 Plan"), 2016 Stock Incentive Plan (the "2016 Plan") and the 2012 Stock Option Plan, as amended (the "2012 Plan") (collectively, the "Plans"), options may be granted to employees, officers, consultants, service providers and directors of the Company. The Plans, as amended, provide for the issuance of a maximum of 868,632 shares of the Company's common stock.

Options granted under the Plans have an exercise price equal to or greater than the fair value of the underlying common stock at the date of grant and become exercisable based on a vesting schedule determined at the date of grant. Typically, options granted generally become fully vested after four years. Any options that are forfeited or cancelled before expiration become available for future grants. The options expire between 5 and 10 years from the date of grant. Restricted stock awards granted under the Plans are subject to a vesting period determined at the date of grant. As of March 31, 2019, an aggregate of 520,539 of the Company's options are still available for future grant.

During the three months ended March 31, 2019, the Company did not grant any options. During the three months ended March 31, 2018, the Company did not grant any options from the Plans; however, the Company did grant 38,750 options to its employees outside of the Plans. These options become fully vested after four years. The Company estimated the grant date fair value of options granted utilizing the Black-Scholes option pricing model during the three months ended March 31, 2018 was \$1,480,195 which is being recognized as stock-based compensation expense over the requisite four-year service period. During the three months ended March 31, 2019 and 2018, the Company also issued 375,000 and 64,153, respectively, shares of common stock to its consultants and service providers. The Company estimated the grant date fair value of these shares of common stock was \$253,019 and \$2,457,102, respectively, which was determined from the closing price of the Company's common stock on the date of issuance.

MARCH 31, 2019

The Company has valued the options at their date of grant utilizing the Black-Scholes option pricing model. This model is dependent upon several variables such as the options' term, exercise price, current stock price, risk-free interest rate estimated over the expected term and estimated volatility of our stock over the expected term of the options. The risk-free interest rate used in the calculations is based on the implied yield available on U.S. Treasury issues with an equivalent term approximating the expected life of the options as calculated using the simplified method. The estimated volatility was determined based on the historical volatility of our common stock.

During the three months ended March 31, 2018, the Company estimated the fair value of stock options granted using the Black-Scholes option pricing model with the following weighted average assumptions:

	Three Months Ended March 31, 2018
Weighted average risk-free interest rate	2.41% — 2.43%
Weighted average life (in years)	5.0
Volatility	124.7%
Expected dividend yield	0%
Weighted average grant-date fair value per share of options granted	\$ 38.20

The options outstanding as of March 31, 2019, have been classified by exercise price, as follows:

Outstanding			Exercisable		
Exercise Price	Number Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$12.00 - \$14.00	149,000	7.27	\$13.44	96,751	\$13.31
\$26.40 - \$27.60	8,500	8.28	\$27.46	3,500	\$27.26
\$30.20 - \$33.80	2,875	3.33	\$32.67	2,875	\$32.67
\$12.00 - \$33.80	160,375	7.25	\$14.53	103,126	\$14.32

January Exchange Agreement

On August 16, 2018, as amended on November 29, 2018, the Company entered into a securities purchase agreement with four institutional investors providing for the issuance of 8% promissory notes, each in the principal amount of \$318,150, for an aggregate principal face amount of \$1,272,600, due February 15, 2019 (individually the “8% Short-Term Promissory Note” and collectively the “8% Short-Term Promissory Notes”).

On January 23, 2019 the Company entered into an Exchange Agreement (the “January Exchange Agreement”) with one of the institutional investors pursuant to which the Company issued to the investor two new 8% promissory notes in the aggregate principal amount of \$1,043,799 (the “New Notes”) in exchange for one of the 8% Short-Term Promissory Notes and the October short-term promissory note in the principal amount of \$565,000.

Pursuant to the January Exchange Agreement, the investor received 436,753 shares of common stock of the Company issued under the Company’s Registration Statement on Form S-3 (File No. 333-222132) in satisfaction of the New Notes. Further, since the investor’s proceeds from the sale of all 436,753 shares of common stock received were not equal to the outstanding principal balance of the New Notes, the Company was required to pay to the investor the difference, which amounted to \$244,898, in cash or through the delivery of free trading shares of common stock. The Company recognized additional interest expense for the difference of \$244,898. On March 19, 2019, the Company issued to the investor an additional 102,041 shares of the Company’s common stock, with a value of \$73,016, in partial satisfaction of the liability, resulting in a remaining balance due of \$171,882.

February 2019 Exchange Agreement

On February 20, 2019 the Company entered into an Exchange Agreement (the “February Exchange Agreement”) with another one of the institutional investors pursuant to which the Company issued to the investor a new 8% promissory note in the principal amount of \$433,884 (the “New Note”) in exchange for the 8% Short-Term Promissory Note (the “Old Note”).

Pursuant to the February ’19 Exchange Agreement, the investor received 180,785 shares of common stock of the Company issued under the Company’s Registration Statement on Form S-3 (File No. 333-222132) in satisfaction of the New Note. Further, since the investor’s proceeds from the sale of all 180,785 shares of common stock received were not equal to the outstanding principal balance of the New Note, the Company is required to pay the difference, which amounted to \$289,954, to the investor in cash or through the delivery of free trading shares of common stock. The Company recognized additional interest expense for the difference of \$289,954. On April 4, 2019, the Company issued to the investor an additional 375,000 shares of the Company’s common stock, with a value of \$108,523, in partial satisfaction of the liability, resulting in a remaining balance due of \$183,822.

17. CONVERTIBLE NOTES

Convertible Notes Payable at March 31, 2019 and December 31, 2018, are comprised of the following.

	March 31, 2019	December 31, 2018
10% Convertible secured notes	\$ 6,260,294	\$ 7,997,126
Less:

Total convertible notes payable, net of financing cost	<u>\$ 6,260,294</u>	<u>\$ 6,742,494</u>

On May 15, 2018, the Company entered into a securities purchase agreement to sell a 10% convertible note (the “10% Convertible Note”) in the principal amount of \$6,000,000. On July 2, 2018 and August 31, 2018, the Company entered into securities purchase agreements with the institutional investor providing for the issuance of a second 10% convertible note with a principal face amount of \$1,000,000 (the “Second 10% Convertible Note”) and a third 10% convertible note with a principal face amount of \$2,000,000 (the “Third 10% Convertible Note” and with the Second 10% Convertible Note, the “Additional 10% Convertible Notes”), respectively.

On January 9, 2019, the 10% Convertible Note was amended revising the amortization schedule such that the conversion price on eleven monthly amortization payments in the principal amount \$309,193 each, at the request of the holder, shall be satisfied by the issuance of shares of the Company’s common stock. The conversion price on these monthly amortization payments was reduced from \$8.00 per share of common stock to a price equal to the greater of (i) \$2.40 per share (the closing price of the Company’s common stock on January 9, 2019) or (ii) 80% of the lowest daily VWAP in the three days prior to the date of issuance, but not to exceed \$8.00 per share. Further, the Company shall have the right to pay the monthly amortization payment in cash within 72 hours by advising the investor within two hours of receipt of any conversion notice. The amendment to the embedded conversion option of the 10% Convertible Note caused a material change in the fair value of the embedded conversion options and resulted in a loss on extinguishment of \$807,784.

Between January 4, 2019 and February 21, 2019, the Company issued to the investor 336,487 shares of its common stock upon the conversion of \$1,053,351 in principal and accrued interest. The investor received \$660,337 from the sale of these shares of common stock. In accordance with the January 9, 2019 amendment, the Company is required to pay the difference between the conversion amount and the proceeds received from the subsequent sale of the shares by the investor, which amounted to \$393,014. The Company recognized additional interest expense in the amount of \$393,014.

On April 2, 2019, the Company repaid principal of \$3,000,000 and accrued interest of \$1,125,000 on the Additional 10% Convertible Notes and made a payment of \$353,308 towards the 10% Convertible Note.

18. COMMITMENTS AND CONTINGENCIES

On July 31, 2018 a stockholder derivative complaint was filed in the United States District Court for the Central District of California against the Company as the nominal defendant, as well as its current directors and a former director styled *Ethan Young and Greg Young, Derivatively on Behalf of Nominal Defendant, DPW Holdings, Inc. v. Milton C. Ault, III, Amos Kohn, William B. Horne, Jeff Bentz, Mordechai Rosenberg, Robert O. Smith, and Kristine Ault and DPW Holdings, Inc.*, as the nominal defendant (Case No. 18-cv-6587) (the “Complaint”). No hearings have been scheduled as of the date hereof.

The Complaint alleges violations of state law and breaches of fiduciary duty, unjust enrichment and gross mismanagement by the individual defendants as, in the view of the plaintiffs, the Company has entered into poorly advised loan transactions and related party transactions. The Company and the individual defendants believe that these claims are without merit and intend to vigorously defend themselves. The Company and the individual defendants moved to dismiss the Complaint and on February 25, 2019, the Court granted the motion to dismiss but granted plaintiffs leave to amend their Complaint. On March 11, 2019, plaintiffs filed their amended complaint asserting violations of breaches of fiduciary duties and unjust enrichment claims based on the previously pled transactions. On March 25, 2019, the Company and the individual defendants filed a motion to dismiss the amended complaint. On May 6, 2019, the Motion to Dismiss was fully submitted to the Court without oral argument. The Motion is now pending before the Court.

Based on the Company’s assessment of the facts underlying the claims, the uncertainty of litigation, and the preliminary stage of the case, the Company cannot estimate the reasonably possible loss or range of loss that may result from this action. However, an unfavorable outcome may have a material adverse effect on the Company’s business, financial condition and results of operations.

On November 28, 2018, *Blockchain Mining Supply and Services, Ltd*, a vendor who sold computers to the Company’s subsidiary, filed in the United States District Court for the Southern District of New York against Super Crypto Mining, Inc. and the Company (Case No. 18-cv-11099). The Complaint asserted claims for breach of contract and promissory estoppel against the Company and its subsidiary arising from the subsidiary’s failure to satisfy a purchase agreement. The Complaint seeks damages in the amount of \$1,388,495.

On February 4, 2019, pursuant to the Court’s Rules, the Company requested a pre-motion Conference with the Court. The Company’s time to file its motion to dismiss is stayed until the Court’ holds the pre-motion Conference, which has not yet been scheduled by the Court.

Based on the Company’s assessment of the facts underlying the claims, the uncertainty of litigation, and the preliminary stage of the case, the Company cannot estimate the reasonably possible loss or range of loss that may result from this action. However, the Company has established a reserve in the amount of the unpaid portion of the purchase agreement. An unfavorable outcome may have a material adverse effect on the Company’s business, financial condition and results of operations.

19. STOCKHOLDERS' EQUITY

Amendments to Certificate of Incorporation

On January 3, 2019, the Company filed a certificate of amendment (the "Certificate of Amendment") to its Certificate of Incorporation, with the Secretary of State of the State of Delaware, to effectuate an increase to the number of authorized shares of common stock of the Company. Pursuant to the Certificate of Amendment, the Company increased the number of authorized shares of its Class A common stock to 500,000,000 from 200,000,000 (the "Authorized Increase"). The number of authorized shares of the Company's Class B common stock remains at 25,000,000 and the number of authorized shares of the Company's preferred stock remains at 25,000,000. As a result of the increase of authorized shares of the Company's Class A common stock, the aggregate number of the Company's authorized shares is 550,000,000. The Authorized Increase was approved by the Company's board of directors as of December 28, 2018 and approved by a vote of the stockholders of the Company at the December 28, 2018 Annual Meeting of Stockholders. The Certificate of Amendment became effective upon filing with the State of Delaware on January 3, 2019.

On March 14, 2019, pursuant to the authorization provided by the Company's stockholders at a Special Meeting of Stockholders, the Company's Board of Directors approved the Certificate of Incorporation Amendment (the "COI Amendment") to effectuate a reverse stock split of the Common Stock affecting both the authorized and issued and outstanding number of such shares by a ratio of one-for-twenty (the "Reverse Stock Split"). The Company filed the COI Amendment to its Certificate of Incorporation with the State of Delaware effectuating the Reverse Stock Split on March 14, 2019. As a result of the Reverse Stock Split, each twenty (20) shares of common stock issued and outstanding prior to the Reverse Stock Split were converted into one (1) share of common stock, with no change in authorized shares or par value per share.

Preferred Stock

The Company is authorized to issue 25,000,000 shares of Preferred Stock \$0.001 par value. The Board of Directors has designated 1,000,000 shares as Series A Convertible Preferred Stock (the "Series A Preferred Stock"), 500,000 shares as Series B Convertible Preferred Stock (the "Series B Preferred Stock") and 2,500 shares as Series C Convertible Redeemable Preferred Stock (the "Series C Preferred Stock"). The rights, preferences, privileges and restrictions on the remaining authorized 23,497,500 shares of Preferred Stock have not been determined. The Company's Board of Directors is authorized to create a new series of preferred shares and determine the number of shares, as well as the rights, preferences, privileges and restrictions granted to or imposed upon any series of preferred shares. As of March 31, 2019, there were 1,434 shares of Series A Preferred Stock, 125,000 shares of Series B Preferred Stock and no other shares of Preferred Stock issued or outstanding.

On February 27, 2019, the Company filed a Certificate of Designations of Rights and Preferences of Series C Convertible Redeemable Preferred Stock to its Certificate of Incorporation, as amended on January 2, 2019, with the Secretary of State of the State of Delaware to establish the preferences, limitations and relative rights of the Series C Convertible Redeemable Preferred Stock. The holders of Series C Preferred Stock shall not be entitled to receive dividends. Unless previously converted into shares of common stock, any shares of Series C Preferred Stock issued and outstanding sixty (60) months from their date of issuance (the "Redemption Date"), shall be mandatorily redeemed and repurchased by the Company at the stated value. In addition, upon the voluntary or involuntary liquidation, dissolution or winding up of the Company's affairs, then, before any distribution or payment shall be made to the holders of any common stock or any other class or series of junior stock, the holders of the Series C Preferred Stock shall be entitled to receive out of the Company's assets legally available for distribution to stockholders, liquidating distributions in the amount of the liquidation preference, or \$1,000 per share

Holders of the Series C Preferred Stock shall be entitled to vote with holders of outstanding shares of common stock, voting together as a single class, with respect to any and all matters presented to the stockholders of the Company for their action or consideration. The Series C Preferred Stock shall be voted on an "as converted" basis together with the common stock, subject to the provisions of the Delaware General Corporation Law.

On February 27, 2019, the Company entered into a Securities Purchase Agreement with Ault & Company, Inc., a Delaware corporation and a stockholder of the Company ("Ault & Company"). Pursuant to the terms of the Agreement, Ault & Company will invest at its sole and absolute discretion up to \$2,500,000 in the Company through the purchase of the Company's Series C Preferred Stock, during the period commencing on the Closing Date and ending on December 31, 2019. Each share of Series C Preferred Stock shall be purchased at \$1,000 (the "Stated Value") for up to a maximum issuance of 2,500 shares of Series C Preferred Stock. Each share of Series C Preferred Stock shall become convertible after the eighteen months from the date from the date of issuance into such number of fully paid and non-assessable shares of the Company's common stock ("Common Stock") for \$2.40 per share, subject to adjustments (the "Conversion Price"). The Preferred Stock is mandatorily redeemable by the Company after five years from the date of issuance.

22. SUBSEQUENT EVENTS

In accordance with FASB ASC 855-10, the Company has analyzed its operations subsequent to March 31, 2019 and thru the date of this report being issued and has determined that it does not have any material subsequent events to disclose in these financial statements except for the following.

Public Offering

On March 29, 2019, the Company entered into an underwriting agreement (the "Underwriting Agreement") with A.G.P./Alliance Global Partners (the "Underwriter"), pursuant to which the Company agreed to issue and sell an aggregate of (a) 2,855,500 shares of its common stock (the "Shares") together with warrants to purchase 2,855,500 shares of common stock (the "Common Warrants") and (b) pre-funded warrants to purchase up to an aggregate of 12,700,000 shares of its common stock (the "Pre-Funded Warrants") together with a number of Common Warrants to purchase 12,700,000 shares of common stock (the "Offering"). The Shares were sold to the purchasers at the public offering price of \$0.44 per share (the "Offering Price"). The Common Warrants were sold at a public offering price of \$0.01 per Common Warrant. The Pre-Funded Warrants were offered to each purchaser whose purchase of the Shares and the Common Warrant in the Offering would otherwise result in the purchaser, together with its affiliates and certain related parties, beneficially owning more than 4.99% (or, at the election of the purchaser, 9.99%) of the Company's outstanding common stock immediately following the consummation of the Offering. The purchase price of each Pre-Funded Warrant equaled the Offering Price at which the Shares were sold to the public in the Offering, minus \$0.01, and the exercise price of each Pre-Funded Warrant equaled \$0.01 per share.

Pursuant to the Underwriting Agreement, the Company also granted the Underwriter the option to purchase up to 428,325 additional shares of common stock, and/or Pre-funded Warrants to purchase up to 1,905,000 additional shares of common stock and/or Common Warrants to purchase up to 2,333,325 additional shares of common stock to cover over-allotments, if any. The option is exercisable 45 days after entry into the Underwriting Agreement. The Offering was made pursuant to the shelf registration statement on Form S-3 (File No. 333-222132), as amended, that was filed by the Company with the SEC on January 8, 2019 and declared effective by the SEC on January 11, 2018, and a related prospectus supplement.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
MARCH 31, 2019

The Common Warrants are exercisable at any time after the date of issuance at an exercise price of \$0.45 per share and will expire on the fifth anniversary of the original issuance date. If at the time of exercise, there is no effective registration statement registering, or no current prospectus available for, the issuance of the shares of common stock underlying the Common Warrants, then the Common Warrant may be exercised through a cashless exercise, in which case the holder would receive upon such exercise the net number of shares of common stock determined according to the formula set forth in the Common Warrant. If on any date on or after May 2, 2019, the volume weighted average price of the Company's common stock fails to exceed the exercise price of the Common Warrant in effect on such date, the Common Warrant may be exercised such that the holder will receive one common share for each warrant held.

The Pre-Funded Warrants are exercisable at any time after the date of issuance and may be exercised at any time until all the Pre-Funded Warrants are exercised in full. As an alternative to payment in immediately available funds, the holder may elect to exercise the Pre-Funded Warrant through a cashless exercise.

In addition, the Company has also issued the Underwriter a warrant to purchase a maximum of 622,220 additional shares of common stock (equal to 4% of the Shares sold in the Offering plus the number of shares of common stock underlying the Pre-Funded Warrants) at an initial exercise price of \$0.50 per share, with a term of five years (the "Underwriter's Warrant"). The Underwriter's Warrant contains demand and piggy-back registration rights. If at the time of exercise, there is no effective registration statement registering, or no current prospectus available for, the issuance of the shares of common stock underlying the Underwriter's Warrant, then the Underwriter's Warrant may be exercised through a cashless exercise.

The Company received net proceeds from the Offering of \$6,204,717, after deducting underwriting discounts and commissions and offering expenses. The Company used the net proceeds from the Offering primarily for the repayment of debt.

The Offering closed on April 2, 2019 and as of May 8, 2019 the Company had issued a total of 27,101,000 shares of its common stock, inclusive of shares issued pursuant to the exercise of a total of 12,700,000 Pre-Funded Warrants and 11,545,500 shares issued pursuant to the cashless exercise of the Common Warrants.

WDCO ATM Offering

On April 1, 2019, the Company received net proceeds of \$248,172 through the sale of 1,000,000 shares of the Company's common stock through the WDCO ATM Offering.

Payment of related party receivable

During the years ended December 31, 2018 and 2017, the Company recognized \$3,907,280 and \$173,751 in revenues from MTIX, a related party, to manufacture the Multiplex Laser Surface Enhancement ("MLSE") plasma-laser systems. On April 12, 2019, the Company received payment of \$2,676,219 for manufacturing services performed on the first MLSE system.

Offering Statement

On May 13, 2019, the Company filed an Offering Statement on Form 1-A pursuant to Regulation A promulgated by the Securities and Exchange Commission (the "Commission"), pursuant to which up to \$50 million of 3-year, non-convertibles promissory notes ("Promissory Notes") will be offered and sold once the Commission has qualified the Offering Statement. The Company anticipates that the Promissory Notes will accrue annualized interest of between 5% and 15% that will be paid rata monthly and will be offered on a continuous basis, in each case as determined by the Company in its sole discretion. The Company cannot provide any assurance that any notes will be sold pursuant this Offering Statement.

Convertible Promissory Note

On May 13, 2019, the Company entered into a securities purchase agreement pursuant to which it issued a five year \$660,000 4% convertible promissory note and a warrant to purchase 500,000 shares of common stock to an accredited investor. The promissory note is in the principal amount of \$660,000 and was sold for \$500,000.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this quarterly report, the “Company,” “DPW Holdings,” “we,” “us” and “our” refer to DPW Holdings, Inc., a Delaware corporation, our wholly-owned subsidiaries, Coolisys Technologies, Inc., Power-Plus Technical Distributors, LLC, Digital Power Lending, LLC, Digital Farms, Inc., Digital Power Limited, Enertec Systems 2001 Ltd. and our majority owned subsidiaries, Microphase Corporation and I.A.M, LLC.

Recent Developments

On October 15, 2018, we entered into an At-The-Market Issuance Sales Agreement with Wilson-Davis & Co., Inc., (“WDCO”) as sales agent to sell shares of our common stock, having an aggregate offering price of up to \$25 million from time to time, through an “at the market offering” program (the “WDCO ATM Offering”). The offer and sale of our common stock was made pursuant to the Company’s effective “shelf” registration statement on Form S-3 and an accompanying base prospectus contained therein (Registration Statement No. 333-222132) filed with the SEC on December 18, 2017, amended on January 8, 2018, and declared effective by the SEC on January 11, 2018, and a prospectus supplement related to the ATM Offering, dated October 15, 2018. Subject to the terms and conditions of the At-The-Market Issuance Sales Agreement, WDCO used commercially reasonable efforts to sell shares of our common stock, based upon our instructions, consistent with its normal trading and sales practices and applicable state and federal laws, rules and regulations and rules of the NYSE American. We paid to WDCO a commission in an amount equal to 4.0% of the gross sales price per share of common stock sold through the WDCO ATM Offering as sales agent under the At-The-Market Issuance Sales Agreement. The WDCO ATM Offering was terminated effective April 1, 2019.

On March 29, 2019, we entered into an underwriting agreement pursuant to which we sold an aggregate of (a) 2,855,500 shares of our common stock (the “Shares”) together with warrants to purchase 2,855,500 shares of common stock (the “Common Warrants”) and (b) pre-funded warrants to purchase up to an aggregate of 12,700,000 shares of our common stock (the “Pre-Funded Warrants”) together with a number of Common Warrants to purchase 12,700,000 shares of common stock (the “Offering”). The Shares were sold to the purchasers at the public offering price of \$0.44 per share (the “Offering Price”). The Common Warrants were sold at a public offering price of \$0.01 per Common Warrant. The Pre-Funded Warrants were offered to each purchaser whose purchase of the Shares and the Common Warrant in the Offering would otherwise result in the purchaser, together with its affiliates and certain related parties, beneficially owning more than 4.99% (or, at the election of the purchaser, 9.99%) of our outstanding common stock immediately following the consummation of the Offering. The purchase price of each Pre-Funded Warrant equaled the Offering Price at which the Shares were sold to the public in the Offering, minus \$0.01, and the exercise price of each Pre-Funded Warrant equaled \$0.01 per share. We received net proceeds from the Offering of \$6,204,717, after deducting underwriting discounts and commissions and offering expenses. We used the net proceeds from the Offering primarily for the repayment of debt.

GENERAL

We are a growth company seeking to increase our revenues through acquisitions. Our strategy reflects our management and Board’s current philosophy which we began implementing upon the change in control that was completed on September 22, 2016. Our acquisition and development target strategy include companies that have developed a “new way of doing business” in mature, well-developed industries experiencing changes due to new technology; companies that may become profitable or more profitable through efficiency and reduction of costs; companies that are related to our core business in the commercial and defense industries; and companies that will enhance our overall revenues. It is our goal to substantially increase our gross revenues in the near future.

We were originally a solution-driven organization that designed, developed, manufactured and sold high-grade customized and flexible power system solutions for the medical, military, telecom and industrial markets. Although we intend to seek growth through acquisitions, we will continue to focus on high-grade and custom product designs for the commercial, medical and military/defense markets, where customers demand high density, high efficiency and ruggedized products to meet the harshest and/or military mission critical operating conditions.

We have operations located in Europe through our wholly-owned subsidiary, Digital Power Limited (“**DP Limited**”), Salisbury, England, which operates under the brand name of “Gresham Power Electronics” (“**Gresham**”). DP Limited designs, manufactures and sells power products and system solutions mainly for the European marketplace, including power conversion, power distribution equipment, DC/AC (Direct Current/Active Current) inverters and UPS (Uninterrupted Power Supply) products. Our European defense business is specialized in the field of naval power distribution products.

We are a Delaware corporation with our corporate office located at 201 Shipyard Way, Suite E, Newport Beach, California 92663. Our phone number is 949-444-5464 and our website address is www.dpwholdings.com.

Revenues

Our revenues increased by \$1,743,196, or 33.6%, to \$6,939,043 for the three months ended March 31, 2019, from \$5,195,847 for the three months ended March 31, 2018. The increase in revenue was primarily due to our acquisition of 98.1% of the outstanding equity interests of I.A.M on May 23, 2018, and our acquisition of Enertec on May 23, 2018. During the three months ended March 31, 2019, these acquisitions represented \$3,671,719 of our revenues. Excluding revenue from our acquisitions of I.A.M and Enertec, the Company generated revenues of \$3,267,324, which represented a decrease of \$1,928,523. As discussed below, the decrease of \$1,928,523 from the three months ended March 31, 2018, was primarily due to a decrease in revenue from our cryptocurrency mining operations and from the manufacture of the Multiplex Laser Surface Enhancement (“MLSE”) plasma-laser system.

Revenues, cryptocurrency mining

In January 2018, we formed Digital Farms, Inc. (“Digital Farms”), a wholly-owned subsidiary. Digital Farms was established to operate our cryptocurrency business, which is pursuing a variety of digital currencies. We are mining the top three cryptocurrencies for our own account. These cryptocurrencies include Bitcoin, Litecoin and Ethereum. During the three months ended March 31, 2019, due to the overall decline in market prices of digital currencies we curtailed our mining operations which resulted in a decrease in revenues \$208,692.

Revenues, related party

During the three months ended March 31, 2018, we recognized \$1,792,892 in revenues resulting from our purchase order with MTIX Limited, a company formed under the laws of England and Wales (“MTIX”). Conversely, we did not recognize any revenues from MTIX during the three months ended March 31, 2019. MTIX was acquired by AVLP on August 22, 2017 and is therefore a related party. In March 2017, the Company was awarded a 3-year, \$50 million purchase order by MTIX to manufacture, install and service the Multiplex Laser Surface Enhancement (“MLSE”) plasma-laser system. Over the next several years, management believes that the MLSE purchase order will be a source of revenue and generate significant cash flows. The lack of revenue during the three months ended March 31, 2019 was due to an emphasis on reducing the debt obligations incurred in May 2018 to acquire Enertec. Payments, and the related manufacturing services, that otherwise would have gone to subcontractors of the MLSE plasma-laser system were delayed to position us to make significant debt reductions.

Gross Margins

Gross margins decreased to 26.2% for the three months ended March 31, 2019 compared to 26.8% for the three months ended March 31, 2018. The Company’s gross margins have typically ranged between 33% and 37%, with slight variations depending on the overall composition of our revenue. During the three months ended March 31, 2018, our gross margins were 26.8%. The decrease in gross margins from our historical average was partially attributable to the lower margin related party revenue of \$1,792,892 from MTIX, with gross margins of 22.6%, combined with negative margins at Digital Farms. The negative gross margins at Digital Farms resulted from monthly recurring fixed costs at our colocation facilities which temporarily exceed the revenues from our mining operations. If we had not recognized revenue, and the related cost of revenue, from Digital Farms and our contract with MTIX, then our adjusted gross margins for the three months ended March 31, 2018 would have been 33.6%. During the three months ended March 31, 2019, gross margins of 26.2% were negatively affected by Digital Farms. Excluding the contribution of the Digital Farms, gross margins during the three months ended March 31, 2019 were 36.7%.

Engineering and Product Development

Engineering and product development expenses increased by \$112,655 to \$455,678 for the three months ended March 31, 2019 from \$343,023 for the three months ended March 31, 2018. The increase in engineering and product development expenses is attributed to our acquisition of Enertec, which due to the timing of the acquisition was excluded from the prior period amount.

Selling and Marketing

Selling and marketing expenses were \$474,343 for the three months ended March 31, 2019 compared to \$725,471 for the three months ended March 31, 2018, a decrease of \$251,128. Our acquisition of Enertec and I.AM resulted in an increase of \$187,947. This increase was offset by increases in personnel costs directly attributed to sales and marketing personnel throughout our operations.

General and Administrative

General and administrative expenses were \$5,430,966 for the three months ended March 31, 2019 compared to \$3,221,623 for the three months ended March 31, 2018, an increase of \$2,209,343. Our acquisitions of Enertec and I.AM accounted for \$1,270,362 of the increase in general and administrative expenses. The adjusted increase of \$938,981 from the comparative prior period was mainly due to an increase in legal and audit costs, an increase in investor relationship costs and hiring of additional consultants to build an infrastructure in anticipation of our future growth and the increase in cost attributed to the hiring of a Chief Accounting Officer and Senior Vice President of Finance. The remaining increase in general and administrative expenses is due to various costs, none of which are significant individually.

Interest (expense) income, net

Interest expense was \$2,099,541 for the three months ended March 31, 2019 compared to \$3,731,436 for the three months ended March 31, 2018. The decrease in interest expense for the three months ended March 31, 2019 is primarily related to a reduction of amortization of debt discount, in the aggregate amount of \$1,559,935, resulting from original issue discount from the issuance of warrants in conjunction with the sale of debt instruments. During the three months ended March 31, 2019 and 2018, as a result of these issuances, non-cash interest expense of \$1,491,065 and \$3,051,000, respectively, was recorded from the amortization of debt discount and debt financing costs. The remaining decrease in interest expense was due to an increase in the amount of the Company's total borrowings and which was primarily offset by interest income pursuant to the Loan and Security Agreement entered into on September 6, 2017, between the Company and AVL.P.

Operating Loss

The Company recorded an operating loss of \$4,654,796 for the three months ended March 31, 2019 compared to an operating loss of \$2,968,295 for the three months ended March 31, 2018. The increase in operating loss is mostly attributable from the increase of general and administrative expenses.

Net Loss

For the foregoing reasons, our net loss for the three months ended March 31, 2019, was \$6,711,026 compared to a net loss of \$6,095,953 for the three months ended March 31, 2018. After taking into consideration the loss attributable to the non-controlling interest of the minority shareholders of Microphase during the three months ended March 31, 2019 and 2018, of \$32,416 and \$35,431, respectively, and preferred dividends of \$1,869 and nil, respectively, the net loss available to common shareholders during the three months ended March 31, 2019 and 2018, was \$6,680,479 and \$6,060,522, respectively.

As reflected in our consolidated statement of cash flows for the three months ended March 31, 2019 and 2018, our reported net loss is comprised of non-cash charges of \$2,444,142 and \$4,152,000, respectively. A summary of these non-cash charges is as follows:

	For the Three Months Ended	
	March 31,	
	2019	2018
Interest expense – debt discount	\$ 1,491,065	\$ 3,051,000
Stock-based compensation	621,288	1,438,000
Depreciation and amortization	961,438	148,000
Amortization of right-of-use assets	32,165	—
Accretion of original issue discount on notes receivable – related party	(612,309)	(485,000)
Accretion of original issue discount on notes receivable	(49,505)	—
Non-cash items included in net loss	<u>\$ 2,444,142</u>	<u>\$ 4,152,000</u>

Other comprehensive loss

Other comprehensive loss was \$706,823 and \$4,714,114, respectively, for the three months ended March 31, 2019 and 2018. Other comprehensive loss for the three months ended March 31, 2019, which decreased our equity, reflects the impact of the weakening of the British Pound on the equity of DP Limited combined with unrealized losses in the warrants that we received as a result of our investment in Avalanche International, Corp., or AVL, a related party. During the three months ended March 31, 2018, the effect of the foreign currency adjustment of the British Pound was offset by unrealized losses in the warrants of AVL.

LIQUIDITY AND CAPITAL RESOURCES

On March 31, 2019, we had cash and cash equivalents of \$1,283,607. This compares with cash and cash equivalents of \$902,329 at December 31, 2018. The increase in cash and cash equivalents was primarily due to cash provided by financing activities being slightly in excess of the amount of cash used in operating and investing activities.

Net cash used in operating activities totaled \$2,262,239 for the three months ended March 31, 2019, compared to net cash used by operating activities of \$2,959,126 for the three months ended March 31, 2018. During the three months ended March 31, 2019, the decrease in net cash used in operating activities compared to the three months ended March 31, 2018 was mainly due to the net loss for the three months ended March 31, 2019 of \$6,711,026. The net loss was partially offset by several non-cash charges, the amortization of debt discount of \$1,491,065 and stock-based compensation of \$621,288, an increase in depreciation and amortization of \$812,933 and accounts payable and accrued expenses of \$3,180,861.

Net cash provided by investing activities was \$971,237 for the three months ended March 31, 2019 compared to \$9,764,911 of net cash used in investing activities for the three months ended March 31, 2018. The decrease of the net usage of cash from investing activities was primarily attributed to the purchase of property and equipment at Digital Farms and the investment in AVL during the three months ended March 31, 2018.

Net cash provided by financing activities was \$3,709,501 and \$11,892,657 for the three months ended March 31, 2019 and 2018, respectively. The financing activities primarily related to the sale of 3,791,642 shares of common stock through our ATM Offering for net proceeds of \$4,147,394, net proceeds from the Company's debt financings and from advances of future receipts of \$920,929 which was offset by payments on debt instruments of \$1,358,598.

Historically, we have financed our operations principally through issuances of convertible debt, promissory notes and equity securities. During 2019, as reflected below, we continued to successfully obtain additional equity and debt financing and in restructuring existing debt.

- On October 15, 2018, we entered into an At-The-Market Issuance Sales Agreement with WDCO to sell shares of our common stock. Between January 1, 2019 and April 1, 2019, the date the WDCO ATM Offering was terminated, the Company received net proceeds of \$4,469,630 through the sale of 4,791,642 shares of our common stock through the WDCO ATM Offering.
- On March 29, 2019, we entered into an underwriting agreement pursuant to which on April 2, 2019 we sold the Shares, Common Warrants and Pre-Funded Warrants. We received net proceeds from the Offering of \$6,204,717, after deducting underwriting discounts and commissions and offering expenses. We used the net proceeds from the Offering primarily for the repayment of debt.

On May 13, 2019, we filed an Offering Statement on Form 1-A pursuant to Regulation A promulgated by the Securities and Exchange Commission (the “Commission”), pursuant to which up to \$50 million of 3-year, non-convertibles promissory notes (“Promissory Notes”) will be offered and sold once the Commission has qualified the Offering Statement. We anticipate that the Promissory Notes will accrue annualized interest of between 5% and 15% that will be paid rata monthly and will be offered on a continuous basis, in each case as determined by us in our sole discretion. The Company cannot provide any assurance that any notes will be sold pursuant this Offering Statement.

We expect to continue to incur losses for the foreseeable future and will be required to raise additional capital to continue to support our working capital requirements. We believe that the MLSE purchase order contract of \$50 million will generate meaningful revenue and corresponding cash in 2020. In addition, we have been successful over the last 12 months in raising capital to support our working capital requirements. We anticipate that we will continue to raise capital through public and private equity offerings, debt financings, or other means. If we are unable to secure additional capital, we may be required to curtail our current operations and take additional measures to reduce costs expenses, including reducing our workforce, eliminating outside consultants, ceasing or reducing our due diligence of potential future acquisitions, including the associated legal fees, in order to conserve cash in order to sustain operations and meet our obligations.

Based on the above, these matters raise substantial doubt about the Company’s ability to continue as a going concern.

CRITICAL ACCOUNTING POLICIES

In our Annual Report on Form 10-K for the year ended December 31, 2018, we identified the critical accounting policies which affect our more significant estimates and assumptions used in preparing our consolidated financial statements. The basis for developing the estimates and assumptions within our critical accounting policies is based on historical information and known current trends and factors. The estimates and assumptions are evaluated on an ongoing basis and actual results have been within our expectations. We have not changed these policies from those previously disclosed in our Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable for a smaller reporting company.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to management, including the principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Our principal executive officer and principal financial officer, with the assistance of other members of the Company's management, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report and has determined that our disclosure controls and procedures were not effective as of March 31, 2019 due to certain material weaknesses as described herein.

A material weakness is a control deficiency (within the meaning of the Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 2) or combination of control deficiencies that result in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Management has identified the following material weaknesses:

1. We do not have sufficient resources in our accounting function, which restricts our ability to gather, analyze and properly review information related to financial reporting in a timely manner. In addition, due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties during our assessment of our disclosure controls and procedures and concluded that the control deficiency that resulted represented a material weakness
2. We have inadequate controls to ensure that information necessary to properly record transactions is adequately communicated on a timely basis from non-financial personnel to those responsible for financial reporting. Management evaluated the impact of the lack of timely communication between non-financial and financial personnel on our assessment of our reporting controls and procedures and has concluded that the control deficiency represented a material weakness.
3. We did not design or maintain effective general information technology (“IT”) controls over certain information systems that are relevant to the mitigation of the risk pertaining to the misappropriation of assets. Specifically, we did not design and implement:
 - Program change management controls for certain financially relevant systems to ensure that IT program and data changes affecting the Company’s (i) financial IT applications, (ii) digital currency mining equipment, (iii) digital currency hardware wallets, and (iv) underlying accounting records, are identified, tested, authorized and implemented appropriately; and
 - Physical security controls to ensure that the (i) digital currency hardware wallets, (ii) digital currency hardware wallet master seed phrases, (iii) digital currency hardware wallet pin codes, and (iv) the digital currency mining equipment were safeguarded, monitored, validated, and restorable, both physically and electronically.

Planned Remediation

Management, in coordination with the input, oversight and support of our Audit Committee, has identified the measures below to strengthen our control environment and internal control over financial reporting.

In January 2018 we hired a new Chief Financial Officer and engaged the services of a financial accounting advisory firm. In September 2018, we hired a Chief Accounting Officer and in January 2019, we hired a Senior Vice President of Finance. We have tasked these individuals with expanding and monitoring the Company’s internal controls, to provide an additional level of review of complex financial issues and to assist with financial reporting. Further, as we continue to expand our internal accounting department, the Chairman of the Audit Committee shall perform the following:

- assists with documentation and implementation of policies and procedures and monitoring of controls,
- reviews all anticipated transactions that are not considered in the ordinary course of business to assist in the early identification of accounting issues and ensure that appropriate disclosures are made in our financial statements

We are currently working to improve and simplify our internal processes and implement enhanced controls, as discussed above, to address the material weaknesses in our internal control over financial reporting and to remedy the ineffectiveness of our disclosure controls and procedures.

Changes in Internal Controls over Financial Reporting.

Except as detailed above, during the most recent fiscal quarter 2019 there were no significant changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On July 31, 2018 a stockholder derivative complaint was filed in the United States District Court for the Central District of California against the Company as the nominal defendant, as well as its current directors and a former director styled *Ethan Young and Greg Young, Derivatively on Behalf of Nominal Defendant, DPW Holdings, Inc. v. Milton C. Ault, III, Amos Kohn, William B. Horne, Jeff Bentz, Mordechai Rosenberg, Robert O. Smith, and Kristine Ault and DPW Holdings, Inc.*, as the nominal defendant (Case No. 18-cv-6587) (the “Complaint”). No hearings have been scheduled as of the date hereof.

The Complaint alleges violations of state law and breaches of fiduciary duty, unjust enrichment and gross mismanagement by the individual defendants as, in the view of the plaintiffs, the Company has entered into poorly advised loan transactions and related party transactions. The Company and the individual defendants believe that these claims are without merit and intend to vigorously defend themselves. The Company and the individual defendants moved to dismiss the Complaint and on February 25, 2019, the Court granted the motion to dismiss but granted plaintiffs leave to amend their Complaint. On March 11, 2019, plaintiffs filed their amended complaint asserting violations of breaches of fiduciary duties and unjust enrichment claims based on the previously pled transactions. On March 25, 2019, the Company and the individual defendants filed a motion to dismiss the amended complaint. The motion to dismiss is returnable before the Court on May 6, 2019.

Based on the Company’s assessment of the facts underlying the claims, the uncertainty of litigation, and the preliminary stage of the case, the Company cannot estimate the reasonably possible loss or range of loss that may result from this action. However, an unfavorable outcome may have a material adverse effect on the Company’s business, financial condition and results of operations.

On November 28, 2018, *Blockchain Mining Supply and Services, Ltd*, a vendor who sold computers to the Company’s subsidiary, filed in the United States District Court for the Southern District of New York against Super Crypto Mining, Inc. and the Company (Case No. 18-cv-11099). The Complaint asserted claims for breach of contract and promissory estoppel against the Company and its subsidiary arising from the subsidiary’s failure to satisfy a purchase agreement. The Complaint seeks damages in the amount of \$1,388,495.

On February 4, 2019, pursuant to the Court’s Rules, the Company requested a pre-motion Conference with the Court. The Company’s time to file its motion to dismiss is stayed until the Court’ holds the pre-motion Conference, which has not yet been scheduled by the Court.

Based on the Company’s assessment of the facts underlying the claims, the uncertainty of litigation, and the preliminary stage of the case, the Company cannot estimate the reasonably possible loss or range of loss that may result from this action. However, the Company has established a reserve in the amount of the unpaid portion of the purchase agreement. An unfavorable outcome may have a material adverse effect on the Company’s business, financial condition and results of operations.

ITEM 1A. RISK FACTORS

The risks described in Part I, Item 1A, “Risk Factors,” in our 2018 Form 10-K, could materially and adversely affect our business, financial condition and results of operations, and the trading price of our common stock could decline. These risk factors do not identify all risks that we face - our operations could also be affected by factors that are not presently known to us or that we currently consider to be immaterial to our operations. Due to risks and uncertainties, known and unknown, our past financial results may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods. The Risk Factors section of our 2018 Annual Report on Form 10-K remains current in all material respects.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended March 31, 2019, the Company issued to its consultants a total 375,000 shares of its common stock with an aggregate value of \$253,019, an average of \$0.67 per share for services rendered.

The foregoing issuances were exempt from registration upon reliance of Section 4(a)(2) and Regulation D promulgated thereunder.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

On August 16, 2018, the Company issued secured promissory Notes dated August 16, 2018 (the “Notes”), and amended on November 29, 2018 (the “Amendment”), that had a maturity date of February 15, 2019 (the “Maturity Date”). The Notes, in the principal amount of \$636,300, provide for an interest rate of eight percent (8%), payable on the Maturity Date. The Company did not pay these Notes on the Maturity Date and these Notes are currently in default. The Company is in negotiations with the investors to amend the payment terms on these Notes.
